NEW TRAINING OPPORTUNITIES

Risk Assessment and Management in Clinical Practice: ONLINE and ONSITE

Caroline Logan and Lisa Davis with LSC PSYCHOLOGY

This two-day course on the 15th and 16th of May 2025 focuses on using structured professional judgment to assess and manage harmful behavior risks in clinical practice. It covers violence, sexually harmful behavior, intimate partner and family violence, fire-setting, and self-harm. The course introduces the HCR-20 V3 tool for evaluating harm potential, illustrated with case studies. Participants will also learn forensic clinical interviewing skills, risk formulation, and communication techniques. The course is based on the second edition of *Managing Clinical Risk: A Guide to Effective Practice*, edited by Caroline Logan and Lorraine Johnstone.
